Mr. Clyde Long
QAQC Manager/ Director of Business Development
Somerset Steel Erection Company, Inc.
2478 Lincoln Highway
Stoystown, PA 15563

Dear Mr. Long:

Congratulations, Somerset Steel Erection Company, Inc. has earned a Zero Injury Safety Award® (ZISA®) for 2015! The National Maintenance Agreements Policy Committee (NMAPC) ZISA® program was created to recognize world-class safety, as it is an integral component of the NMAPC system of tripartite governance. NRG Energy, Inc. and the Johnstown Building Trades Council will also be receiving an award (shipped separately to the individuals identified in your winner notification letter) for their role in attaining zero injuries on this project.

Enclosed please find your **Certificate of Merit** for the following project recognized at this year's ZISA® Gala on Thursday, October 27, 2016 at the National Building Museum in Washington, D.C.

Contractor:	Somerset Steel Erection Company, Inc.
Customer:	NRG Energy, Inc.
Labor Organization:	Johnstown Building Trades Council
Plant:	Conemaugh Station
Location:	New Florence, PA
Hours Worked:	67,984

Inspect your award immediately upon arrival. If there are any damages to the award, please follow the instructions outlined in the enclosed PS Awards shipping document for repair or replacement.

Questions regarding the Zero Injury Safety Awards® should be directed to Mr. Wayne Creasap, NMAPC senior director of environmental health and safety, at wcreasap@nmapc.org or 703-887-0455.

Again, congratulations on your exceptional safety record! Thank you for utilizing the NMAPC Program and we look forward to your participation in the Zero Injury Safety Awards® again next year.

Very truly yours,

Stephen R. Lindauer
Impartial Secretary/CEO

Don Walker
Senior Project Manager
Somerset Steel Erection Company
Boswell, Pa 15531

Mr. Walker,

My name is Todd Kollross and I am the Project Manager for the Homer City Scrubber Installations on Units 1 and 2 located in Homer City, Pa. I had the pleasure of employing Somerset Steel Erection Company for a number of construction activities. Somerset was first hired to erect the Sludge Press Building being constructed to support the rerouting of all waste streams into the ash ponds. Because of their capabilities shown to the team during this initial period, Somerset was asked to bid and was awarded the construction of the Rail Unloading Facility as well as the Greenhouse Pond Pumphouse. They performed flawlessly. They finished their work on time and under their forecasted budget.

After this success, Somerset was hired through other contractors to provide several miscellaneous projects associated with the scrubber project. Again, Somerset became embedded with the main scrubber project team, working with all contractors onsite to meet a tight schedule while maintain budget. Your team performed flawlessly.

Somerset was a major asset to our project team and was one of the reasons the project was deemed a large success. Their technical and management skills were needed on a very demanding project and they performed. The entire Somerset team performed well and could always be counted to go above and beyond the expectations of the GE EFS Project Team.

I would highly recommend Somerset Steel for future projects and look forward to working with them in the future. Please pass on my thanks and gratitude for a job well done.

Sincerely,

A handwritten signature in black ink, appearing to read "TK", is written over a horizontal line.

Todd Kollross
NRG Energy
Senior Project Manager

Thank you and Congratulations . . .

C. Daniel Riggs,

I trust that you and members of your organization are having an enjoyable and of course safe summer and that you are finding time for well deserved vacations. As a follow up to notification that I received from ISNetwork, thank you and congratulations. The employees at Somerset Steel Erection Co., Inc. should be very proud of their accomplishments in safety. Here at Appleton, we know that it is not an easy task for your organization to achieve an A grade based upon our strict and stringent requirements. However, across the board, you achieved a very respectable score on the extensive safety evaluation/questionnaire, you have acceptable performance for your trailing performance indicators TRIR and EMR against your industry's average, you earned a very impressive 100% peer review score for the extensive written safety programs, you have acceptable insurance coverage's and finally the signed supplemental agreement. Great Job!

Thank you for your unconditional commitment and passion toward ensuring employee safety and health.

Work safely
